Stephen Banks presented the percentage allocation of Wichita's projected new job growth through 2035 for the seven Wichita statistical development areas, aggregated into west, central and east corridors. This allocation reflects trends from 2002-2011 and utilizes the current 2030 growth plan for Wichita.

MAPD staff and Committee members completed the task started of allocating Wichita's projected new job growth through 2035 within each of Wichita's seven statistical development areas. The purpose of this exercise is to establish an initial baseline housing and job growth scenario that reflects the key elements, characteristics and trend patterns associated with Wichita's current 2030 growth plan.
